

无论您是处于危险或只求安心,我们的血管筛查配套都根据您的独特需求量身定

- An anatomical illustration of the human circulatory system. It features a light gray outline of a human figure with a complex network of red veins and arteries overlaid. The veins are shown in a branching pattern, starting from the extremities and converging towards the heart. The arteries are also depicted in a branching pattern, originating from the heart and extending to all parts of the body.

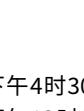

周一至周五(下午)
适用 - 当天/其他

1

有开放性伤口的患者在筛查前，
应先进行伤口处理。

| 步评估。
